C. BOARD OF ADJUSTMENT HEARING

Subject	1. Airport Study No. 2022-83, Forge Building Company, requesting a variance to construct a one and a half story house, with a maximum height of 36' AMSL, located at 107 Martinique Avenue, Tampa, FL, Resolution No. 2022-94
Meeting	Oct 6, 2022 - Aviation Authority Regular Board Meeting and Board of Adjustment Hearing
Access	Public
Type	Action

Background:

Forge Building Company (Petitioner) is seeking to construct a one and a half story house, with a maximum height of 36' AMSL, located at 107 Martinique Avenue, Tampa, FL. The nearest airport is Peter O. Knight Airport.

Notice of this Hearing before the Board of Adjustment was provided on September 14, 2022.

Proposal:

Petitioner is requesting a variance to construct a one and a half story house.

Operational Impact:

The Petition was presented to the Airport Hearing Officer on August 11, 2022 and, based on testimony and evidence presented, the Hearing Officer found that approval of the variance, with required conditions, would have no adverse effect on existing FAA restrictions, would not cause additional impacts or loss of utility to Peter O. Knight Airport, would not be contrary to the public interest, would avoid unnecessary hardship to the Petitioner's property, and would be in accordance with the spirit of the Airport Zoning Regulations and Chapter 333, Florida Statutes.

The FAA's aeronautical study found that Petitioner's request would not be a hazard to air navigation provided certain conditions are met. Additionally, the FDOT did not identify any concerns with the request.

Funding:

N/A

Recommendation:

The Airport Hearing Officer recommends that the Board of Adjustment approve the variance to Airport Zoning Regulations requested by Petitioner with the following conditions: (1) Red Obstruction lighting required in accordance with FAA Advisory Circular 70/7460-1M; (2) E-File FAA Form 7460-2 with the FAA and Peter O. Knight Airport at least 10 days prior to construction and within 5 days after construction reaches its greatest height; (3) Occupants and/or owners must be informed that the structure considered under this variance lies in the approach and departure path of Peter O. Knight Airport and occupants will be subjected to overflight, noise and/or light from aircraft; (4) Authority suggests a noise reduction level of at least 25 db be incorporated into design; (5) Petitioner will be required to follow all conditions specified in the FAA Determination to remain in compliance; (6) Installation equipment (cranes) exceeding 30' AMSL or installation of solar panels will require a separate permit by the Authority; (7) Any glint or glare issues identified from the project must be mitigated by the Petitioner to the satisfaction of the Authority to avoid adverse impacts to aviation; (8) Authority requires a survey of the construction to be completed and submitted to the Authority within 5 days of reaching its greatest height; and (9) In the event that any proposed elevation is exceeded, the Petitioner acknowledges it will modify the building to remove any feature or portion of the building exceeding the permitted elevations as soon as possible.

The variance will be valid until the FAA Determination of No Hazard to Air Navigation expires September 21, 2023, but if the FAA Determination of No Hazard is extended by the FAA for no more than 18 months, the variance will also be extended one time, without further action of the Board of Adjustment, provided that no changes in the proposed structure have occurred.

The Board of Adjustment may render its decision based on the findings and recommendations of the Hearing Officer. However, the Board of Adjustment may, but is not required to, review the record of the Hearing Officer's public hearing.

Resolution:

Resolution No. 2022-94 approves and authorizes a variance for Airport Study No. 2022-83, Forge Building Company, requesting a variance to construct a one and a half story house, with a maximum height of 36' AMSL, located at 107 Martinique Ave, Tampa, FL; and authorizes the Airport Zoning Director or his designee to execute all other ancillary documents.
