Dear Community Noise Forum Participant,

The Airport's west runway is expected to reopen tomorrow, June 19, 2019.

Beginning Thursday, June 20 through Friday, June 28, the Airport's east runway, Runway 1R/19L will be closed continuously for multiple runway maintenance related efforts. **During this closure, arriving and departing aircraft will use the Airports west runway, Runway 1L/19R and/or Runway 10-28, the Airport's east-west runway.**

During this closure, we will accomplish runway rubber removal and associated runway painting efforts, which typically take place in the June timeframe each year.

The work referenced above will be completed as quickly as possible over the current dates outlined above. As always, weather conditions and other factors will contribute to how quickly this work can be completed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam Bouchard".

Adam Bouchard
Director of Operations
